- ✓ 155 AI'D Black and Black Baldy Heifers
- ✓ 112 Black Angus Heifers
- ✓ 84 F1 and Black Baldy Heifers
- ✓ 39 Red Angus Heifers

Sale will be held Saturday February 2nd, 2019 at the Madison Livestock Auction Barn in Madison, SD. Sale Time 12:00pm Noon.

***Sale starts with Bred Heifers.**

Any inclement weather on this sale day or prior Saturday sale dates contact Madison Livestock.

Notes on the Bred Heifers:

- All heifers were purchased from reputation ranches. In the spring they had the following treatments – **Bovishield Gold FP5 VL5 HB, Dectomax injected, pelvic checked, pink eye vaccinated and Fusogard** foot rot vaccine.
- Heifers were AI'D May 31st 2018 to Bruns TopCut and Sitz Dividend. (2 of the top semen selling bulls in the Midwest from ST Genetics)
- Bulls were turned out June 7th 2018 on majority of herd. Bulls consisted of low birth weight **Bruns Angus bulls**.
- Heifers were Ultrasound Tested on August 29th 2018(AI'D) and September 5th 2018(Bull Bred), and given their first **ScourGuard 4KC** vaccination, **Dectomax** poured, and given **foot rot vaccination**
- Heifers are on complete mineral program
- AI'D Calving period (Blue Tag) February 28th to March 9th, 118 Black 37 Baldy
- The Bull bred heifer calving periods are; March 10th to April 1st (Green Tag), 67 Baldy 92 Black 31 Red. April 2nd to April 23rd (Yellow Tag), 16 Baldy 17 Black 8 Red. April 24th to May 3rd (Red Tag), 1 Baldy 3 Black.
- To determine the calving interval, we used a 278-day gestation period. We have been satisfied using this technique for several years. From owner feedback we have been told some angus have a shorter gestation period.
- **The last pregnancy test and 2nd ScourGuard 4KC shot will be done 1 day prior to the sale.**

If you have any further questions or would like to view the heifers prior to the sale contact:

** (Heifers can also be viewed sale morning at Madison Livestock Auction.)**
